SLUGS STEEL

New

ATA 6

- Diameter; 18,5 mm on 12 ga.
- Expansion; 35-39 mm just in the time upon engagement of target
- Design; six symmetric edges covered with plastic injection
- Damage, 2-4 times of a normal slug
- Availability; mainly designed for 12 ga and 20 ga.

This is a power carrier to the target with an increasing expansion. Ensures the perfect shot with its hexagonal unique design that splits just in the time of target contact. ATA 6 puts itself to another class than the classical slug that it is completely machined from steel and are chrome finish.

* New slug shots; available for 12 ga, 20 ga & 36 ga cartridges

These slugs are made especially for security forces and be used stop heavy vehicles.

Perfect For Big Game Hunting.
